

Concept

This application's concept idea is retro and neon theme. Club and pub vibe of texture of application that friends can play together.

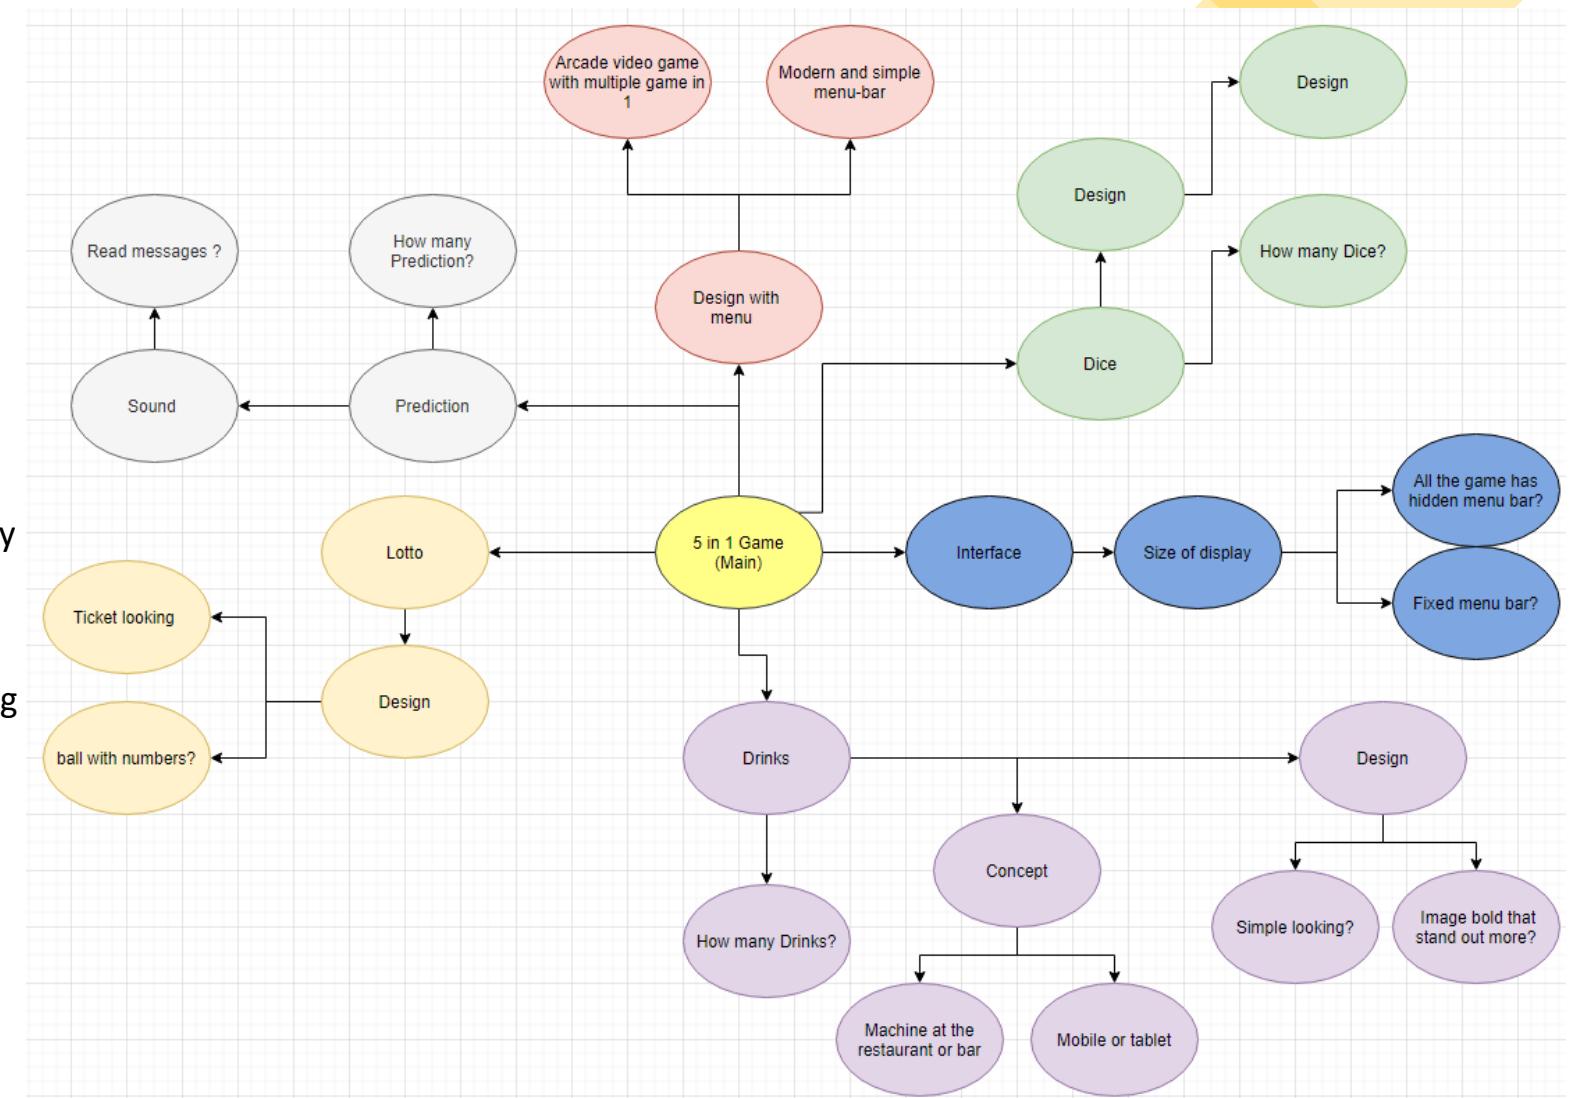

Back in the days in 90's console game machine has five games in one game cartridge.

Friends and Family or anyone can play this games. Main target is 18's to 40's and Couples. This main target group of people can play.

Dice game for dish washing or betting for something. Prediction game for someone want to know about next day or future luck. Lotto for guessing next time buy lottery ticket. Drinks for making favourite alcohol for couples or party night.

Currently in the market, people like retro style and looking for old stuff and most of games or application has one each not 5 in 1 application. But my application is 5 in 1.

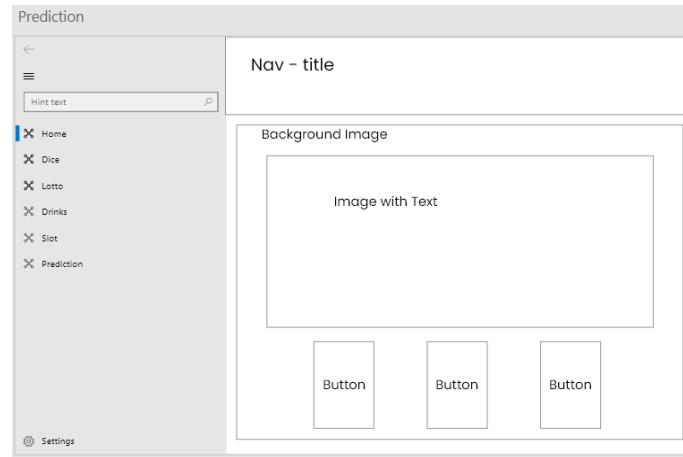

These points will attractive to user.

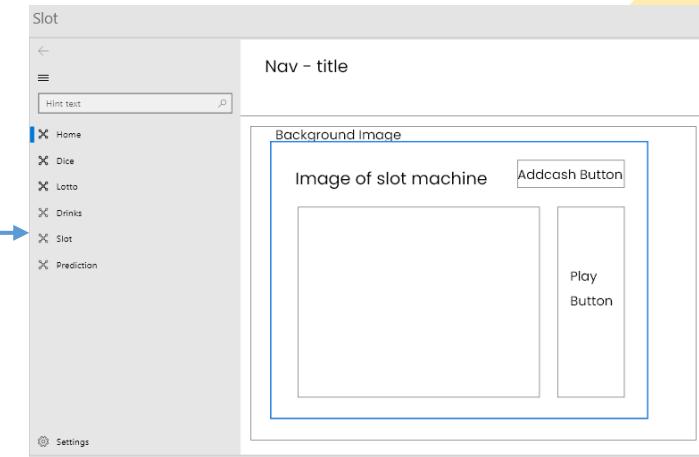

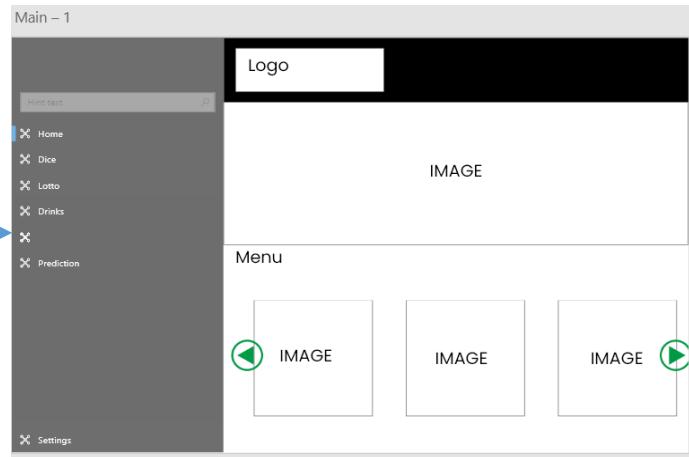

Annotated diagram

is show each page connection with visual.

Poppins

We Choose Poppins font that our application looks neat and tidy.

Poppins is one of the newcomers to this long tradition. With support for the Devanagari and Latin writing systems, it is an internationalist take on the genre.
